INTERVIEW SUMMARY

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This Interview Summary is made in response to the telephonic interview on April 20, 2006, between Examiner Hoa Nguyen, Examiner Kammie Cuneo and Ido Tuchman.

The interview focused on claim 1 of the pending application. The references discussed was U.S. Patent No. 6,353,189 issued to Shimada et al. and U.S. Patent No. 4,816,616 issued to Jones. Also discussed was the "circuit board" definition found in Microsoft Computer Dictionary 5th Ed., Microsoft Press, pp.99 (2002).

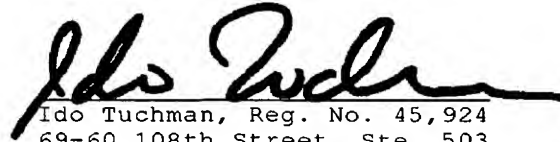

Mr. Tuchman argued that, unlike the present invention, Shimada and Jones teach shielding that is integrated into a circuit assembly. The Examiners alleged that the top half of the assembly shown in Figure 1 of Jones could be construed as a trace cover.

No agreement as to the claims was reached during the interview, however, Mr. Tuchman agreed to file a Supplemental Amendment addressing some of the differences between the present invention and the art of record.

Application Serial No. 10/690,113

Respectfully submitted,

Dated: April 28, 2006

A handwritten signature in black ink, appearing to read 'Ido Tuchman', is written over the printed name and address.
